DENVER, Nov. 14.—[Exclusive Dispatch.] A discovery made public tonight for extracting gold from fore astounds mining men. Wynn, a chemist of repute, after five years of experimenting, says the new theory is absolutely true. He is corroborated by Willard Teller, the Union Pacific's counse, brother of Senator Teller, and a dozen disinterested mining experts. The theory is that gold can be brought from a gaseous state to an ultimate degree of development with astonishingly larger results than from the cyanide or fire process. Low-grade ore is ground for the process.

The secret is in the combination of chemicals, and not in the treatment. Private tests before a committee, extending over several hours, amaged the spectators. Teller says it is the greatest discovery of modern times, and that there is absolutely no question as to its practicability. A syndicate is being formed. Ores with the barest trace of gold yield upward of \$200 at on at a cost of \$50. The method also applies to other ores than gold.

BLUEFIELD (W. Va.) Nov. 14.—Five dead bodies have been taken from the Baby mine at Pocahontas, Va. Several other persons are unaccounted for, and twenty-five persons have been rescued, more or less severely hurt.

At 3 o'clock this morning, it was discovered that the Baby mine of the Pocahontas company at Pocahontas, Va., was on fire. In a short time after the firemen reached the mine a terrific explosion occurred, and many miners and their friends were more or less injured. It is supposed that the mines caught fire from a defective electricity wire. Five bodies had been recovered up to 3 o'clock p.m., and it is uncertain how many more are dead, though it is now known that there are several, perhaps eight or ten men, still in the mine, unless they succeded in making their accene through the Tore (BY THE NEW ASSOCIATED PRESS—A.M.)

WASHINGTON, Nov. 14.—The Canal
Bill which passed the House at the last
session will be reintroduced in substantially the form in which it was
passed last winter. No delay is anticipated in the committee, as the whole
subject has been canvassed thoroughly.

Col. Hepburn told the President that
the bill undoubtedly would have a
large majority in the House. The cable
bill will be identical with the one reported from the committee during the
last Congress. It provides for the laying of the cable by a private corporation, under a contract with the Postmaster-General, with an alternative
provision for the building of the cable
by the government, if no satisfactory
contract can be made. It is understood that the President concurred in
the proposed programme.

Thurston of Nebraska. Stewart came back into the Republican fold, from which he strayed in pursuit of the "money devil," at the last session. His colleague, Jones, is now a Republican again, although this fact may not put him back on the majority side of the Finance Committee, which he left when he became a Populist. It is an interesting fact that Jones, who was first elected to the Senate in 1873, serving continuously ever since, has been chairman of the Senate Committee on Contingent Expenses, for a quarter of a century, except for a few years, when the Senate was in control of the Democrats, twenty years ago. The Senate contingent fund is a mysterious and elastic budget, and the man who controls it possesses a powerful lever for making his colleagues see things the way he desires to have then zeen. During the long recess of Congress many changes and improvements have been made in all parts of the Capitol building, a general system of repairs, refurnishing and redecorating having been in progress. Everything has been completed except the work of putting the new roof on the Supreme Court chamber. This work was delayed owing to the failure of the contractors to supply the material, and was finally postponed, the court meanwhile occupying the room of the Senate Committee on Judiciary. The chamber has not yet been put in shape for the court, and the justices will continue to occupy the committee-room for a week after the meeting time of Congress, at which time they will adjourn until after the holiday recess, when their own chamber will be ready for them. On the day that Congress meets, December 2, the court will listen to arguments in the case of Capt. Oberlin M. Carter, U.S.A.

the case of Capt. Oberlin M. Carter, U.S.A.

So many Senators have been in Washington of late, talking with the President about his message, that there is an interchange of opinion as to what the immediate programme of legislation will be in that body, and it is now generally understood. The first day's session will be devoted to the reception of the President's message, and as soon as that is disposed of, the President will send in the Nicaragua Canal treaty. Committee reorganizations will be perfected as quickly as possible, and the Senate will then begin to hold daily executive sessions, and continue to do so until the treaty is disposed of. It is the general opinion of Senators who have already come to Washington, and who have been consulted by the President and Secretary of State, that the treaty will be ratified. Some of them are so hopeful as to believe that this will be accomplished before the adjournment for the Christmas holidays. The pending reciprocity treaties with France and other countries will not be ratified, except possibly those with Nicaragua and Ecuador, which are of no special importance. Some have died by limitation of time, and others will be allowed to die of their own weight. CARE OF MOSQUITOES.

BRITAIN ABANDONING IT.

IBY THE NEW ASSOCIATED PRIBS-A.M.]

WASHINGTON, Nov. 14.—The statement in a Managua dispatch, credited to Mr. Paget, the British secretary of legation there, to the effect that the United States has approved the claim of Great Britain to be recognized as a protector of the Mosquito Indians, has attracted the attention of the diplomatic body there. An inquiry indicates that there is danger of a complete misunderstanding of the matter. The British government is endianowing to negotiate a treaty with Nicaragua which will enable the British to retire from all claim of jurisdiction on the Mosquito coast, leaving Nicaragua in full sovereignty there, with due guarantees for the proper treatment of the Indians, hitherto under British protection.

The United States has taken no action in the matter. but it is, of course, to the interest of this country that some such absolute recognition of the

overeignty of Nicaragua should be nade, and the pending questions arising out of the treaty of Managua be BIG HARVEST ween Great Britain and Nicaragua be

ing out or the treaty of managua begotten out of the way.

The fact is, that so far from acquiring any new privileges on the Mosquito
coast, the British government is reilinquishing those it now enjoys. The
treaty of Managua, negotiated about
fifty years ago between Great Britain
and Nicaragua, imposed upon the English government the duty of protecting
the Mosquito Indians. Great Britain is
trying now simply to have the Nicaraguan government enter into treaty
obligations to care for these Indians in
the future.

HAWAII MIXES IN THE SUGA

FOUR OF HER PLANTERS CALL ON THE PRESIDENT.

They Claim That Lower Duties of Cuba's Product Will Ruin Pacific Industry-Head of the Nation Will Guard All American Interests.

(BY DIRECT WIRE TO THE TIMES!) WASHINGTON. Nov. 14.—[Exclusive Dispatch.] Hawaii has now commenced to get into the fight between the rival American sugar interests, and four representatives of Hawaiian sugar producers, who saw the President today, stated to him that Hawaiian interests would oppose any reciprocity. today, stated to him that Hawalian in-terests would oppose any reciprocity with Cuba that will reduce the customs on Cuban sugar. The American Sugar Refining Company, known as the su-gar trust, having obtained control of a considerable proportion of Cuba's cane plantations, is working in every possible way to effect a lower rate of duty upon that product for the purpose of cutting down or wiping out the beet-sugar production, which it is unable to control.

The Hawaiians who saw the President today were W. O. Smith, J. B. Alberton, F. M. Swazey and R. P. Rithel. They told the President that lower duties upon Cuban sugar, resulting in layer prices being paid in the United States, would ruin many Hawaiian plantations, and force the employment of ein cheaper labor on the others. The delegates from Hawaii predicted that a reduction of duty upon Cuban sugar would result in bringing still more Japanese laborers into Hawaii to work plantations there.

Of course, the delegates got no assurances from the President other than that he will look out for American interests in Hawaii as elsewhere. The President is making no promises whatever upon either side of the reciprocity question, and said only today that he would make no recomines. The Hawalians who saw the Pre

Becretary Gage, and discussed with him the labor situation in the Hawaitan Islands. The sugar plantations, they told the Secretary, were becoming less productive each year, because of the planters' inability to secure desirable labor. The solution of the question, as the delegation viewed it, was the free admission to the islands of Chinese, at laborers among all those who had been tried on the sugar plantations.

Representative Long of Kansas, who is a member of the Ways and Means Committee or the House, was one of the President's callers today. He joined with his eastern colleagues on the com-

Flattering Report on the Thunds fountain District in Idaho Made by Geological Expert.

BY THE NEW ASSOCIATED PRESS.—P.M.1
BOISE (Idaho) Nov. 14.—According to Prof. E. A. Meade, the geological expert, who has spent two weeks in the Thunder Mountain district, in Idaho, investigating for the Oregon Short Line Railway, the reports concerning the richness of the gold deposits there say the district is one of the richest that has ever been opened.

Prof. Meade followed the main ore body underground for 206 feet in one direction, and for 245 feet in a general way at right angles to the other. He could find no ends, top, or bottom to the body. Running through the main body is a vein four feet thick of free-milling ore that is literally plastered with gold, and which ruhs into the thousands in value. Prof. Meade said there appeared to be a great reef of gold-bearing material running through the country. The main body of the ore. Thunder Mountain, according to Prof. Meade, will probably run as low in values as \$7\$ to \$10\$ at on, but it is in such immense quantities that it can literally be quarried out.

LONDON, Nov. 15.—(By Atlantic Cable.) It is still impossible to estimate with any exactitude the total loss of life and property resulting from the protracted gale, and probably the full extent of the damage will never be known.

Much wreckage of unidentified vessels is still being thrown up. Altogether it is known that some fifty vessels have been wrecked along the British coasts. Thirty-four of these have been absolutely wrecked, involving, it is believed, a loss of more than 130 drowned. The Yarmouth lifeboat disaster alone leaves forty-four fatherless children.

Mirs. Requa said;
"I staked that claim out of sentiment. On my way to Nome I met John Dexter. He was partially paralyzed and I felt sorry for him. He had staked the claim known as No. 4, and I knew he considered it his heart's blood. When in Nome F overheard two men, who pretended to be his friends, say he would have to take his chances, as they intended to stake the claim. I then went out and staked it, with the idea that I would give Mr. Dexer a clear title. Later two men-one of them Harry Campbell—came to me and said if I did not go and file an abandonment they would have me put out of Anvil City. They remarked that some men could shoot straight, and added that when the soldlers came I would be sent to St. Michael. I told them I had come to stay, and they could send soldiers. Later they claimed the affair was a joke."

Mrs. Requa said the records kept by Dr. Kettleson were in poor condition: that alterations were made, entire pages removed, and records changed from day to day. She said missionaries and some of the military officers had claims.

Dist. Atty. Joseph K. Woods concluded his testimony. He refused to disclose what was said at a conference between Judge Noyes with Marshal Vawter and himself, when, it is claimed, the \$20,000 matter was discussed. At that stage Marshal Vawter as himself, when, it is claimed, the \$20,000 matter was given send to the Woods that, as far as he was not on friendly terms with Judge Noyes now.

Business Dispute Between Philip and Louis Calderella the Supposed Cause of Two Pistel Battles-Special Office

(BY THE NEW ASSOCIATED PRESS-A.M.) SAN FRANCISCO, Nov. 14.—Two pistol battles, both arising from the same cause, took place this morning, and three men were wounded. One of the participants is fatally injured, while the other two received less

Filip Calderella of No. 559 Howard street, is at the Central Receiving Hospital, with a bullet hole through his head, and another wound in the shoulder. The shots that will probably result in the death of Calderella were fired by his nephew, George, a lad of 13. The other wounded are:

GEORGE KING, special policeman, shot in left hip.

GEORGE ORLANTE, wounded in the left hand.

GEORGE KING, special policeman, shot in left hip.
GEORGE ORLANTE, wounded in the left hand.
Orlante received his injury in a duel with Joe Mangene, another Italian, who is still at large, Louis Calderella, George Calderella and George Orlante are under arrest.
The parties to the shooting are reticent, but it is supposed that the original trouble had its inception in a business dispute between Philip and Louis Calderella, who are Brothers, and who were a short time ago partners in a fruit store at No. 102 Second street.
This morning a telephone message was received at the Harbor Police Station to the effect that a shooting had taken place in the brass foundry at No. 112 Main street. Patrolman Mackay was dispatched to the zeene, and found that a number of shots had been fired in a fight between George Orlante and Joe Mangene, employés of the foundry. Orlante and his antagonist each fired four or five shots. Orlante received a bail in his left hand. Mangene ran to the rear of the shop and escaped.
Learning that the man they wanted resided at No. 559 Howard street, the officers went to the place, but did not find him. Filip Calderella, Mangene's father-in-law, started up Howard street, and in the hope that he might lead him to Mangene, Mackay followed on the opposite side of the street. Officer Ingham continued the search in another direction. Filip Calderella walked up Howard street to Third, and turned down the latter thoroughfare. As he reached the corner of Natoma atreet, a boy ran up behind him and fired several shots at the old man in rapid succession. Officer Mackay heard the shots, and saw George Calderella running away.

rapid succession. Officer Mackay heard the shots, and saw George Calderells running away.

Near the corner of Tehama and Third streets, at the time, were Police Sergeant Gorman and Special Officer King. As Filip Calderella lay in the gutter the old man drew a pistol and began firing at the rapidly-retreating boy. Thinking to stop the firing and prevent a possible murder, Sergt, Gorman drew a bead on the pistol hand of Filip and fired. Just as he pulled the trigger, however, some one jostled his trigger, however, some on

although the bullets went close in each instance.

Not stopping to return the fire of his latest aggressor, Mackay entered the saloon by the rear entrance, and found young Calderella in an old shed in the yard. The boy surrendered without further trouble. Mackay searched his prisoner, finding an empty revolver and a knife with a blade eight linches long on his person. He turned him over to another officer. The lad was locked up at the Central Police Station, to be held awaiting the result of his uncle's injuries.

Filip Calderella was taken to the Receiving Hospital, and the surgeons found that one bullet had entered the skull, grazing the cerebral membrane and coming out an inch-from the point of entrance. The other ball entered the left shoulder. When questioned about the cause of the trouble, Filip Calderella would say little beyond muttering that it was over business matters.

Young George Calderella explained

reaston that the latter had snot Orlante.

A. Smith, who conducts a roominghouse at No. 111½ Minna street, is held at the Harbor Police Station under suspicion of knowing something of the shooting. Patrolman Ingham found him running away from the scene of the trouble, and placed him under arrest. He had a revolver and ten cartridges in his possession. Smith, who is an American, states that he knows nothing of the trouble, but admits knowing the Calderellas. He says he took a prominent part against the strikers lately, and that, fearing violence, he carried a pistol for protection.

JURIST AND ORATOR DEAD.

STOCKTON, Nov. 14.—J. G. Swinner

STOCKTON, Nov. 14.—J. G. Swinnerton, well known throughout California
as a jurist and orator, died at his home
in this city at 8 o'clock this morning.
His death was due to a general breaking-up of the system.

The deceased would have been 57
years of age on the 21st inst. He was
born in Wisconsin and came to California in 1852, his father being a pioneer. He was educated at the University of the Pacific and taught-school
in San José for some time, after which
he entered the law office of Bodley &
Rankin. He was admitted to the bar
in 1870. He lived in Eureka, Humboldt
county, for ten years, practicing, his
profession there. Later he moved to
Stockton. He twice married a son,
James, who is now a well-known newsapper artist, being born to his first
wife. He married Mrs. Bransford,
daughter of Dr. Barnes of Ukiah, in
1879, and she survives him. The deceased leaves a considerable estate,
but was not insured. He was a Mason,
an Odd Fellow and a Knight of
Pythias.

A meeting of the Stockton Bar Association was called for 1:30 o'clock to
make arrangements for the funeral.

The deceased, who was judge of the
Superior Court of this county for a
term, was regarded as one of the
ablest lawyers in this State. He frequently appeared on the platform for
the Republican party, and during his
career he delivered many interesting
lectures.

JEFFERSONVILLE (Ind.) Nov. 14.—Deputy Sheriff Chi:hester, who represents Fred Schader, Sheriff of Pulaski county, Ark., and the Metropolitan Life Insurance Company, said today:

"Mrs. Rathbun accounted for the light of Identification."

"Mrs. Rathbun accounted for the mistake of identification by saying she only glanced at the body. Later, when she said it was not her husband, she said she was sorry she had not examined the body more closely.

"I know of several cases where Rathbun made to a number of women in Little Rock the same proposition Miss Corinne Pryor says he made to her. Those women will make depositions, and they will be introduced in court at Jeffersonville. Miss Pryor, whom Rathbun approached, is one of the most estimable women in the city. She will swear that Rathbun asked her to join him in the insurance swindle, and I shall probably introduce her as a witness when the case is tried in Jeffersonville."

Marrowly Escaped Electrocution-Fell Down Elevator Shaft But Landed Right Side Up With Care, Barring

not afraid to soil his hands with manual labor, and with characteristic energy he lays hold of any job that seems to need his attention.

There was something wrong with the electric wiring that furnishes the light and power for the store, and Newberry, instead of sending for an electrician to repair the defect in the apparatus, mounted a platform at the top of the freight elevator shaft, and undertook to fix things himself. He got hold of a gas pipe which was in contact with an uninsulated electric wire, charged with 500 voits. At the same time another live wire swinging overhead touched his right temple, thus a short circuit was formed through his body. Instantly there was a flash, and Newberry received a shock which threw him off his feet. He would have gone headiong down the elevator shaft but for the fact that he could not release his grasp from the iron rod. This was wrenched loose, and he carried it down with him, but the resistance of the rod held the upper part of his body up, and he went down the shaft feet first, landing on the floor of the elevator in the basement, twenty-three feet below, right side up with care.

Strange to say, the fall did not far Mr. Newberry very badly. He was not hurt about the feet at all, nor were any bones in any part of his body broken. He suffered most from burns caused by the electricity. His right-temple was painfully seared; he sustained a slight burn on the neck, and another on his right arm, while in the paims of his hand and all over his body are little white blisters. He also has sundry bruises and is slightly lame in the right knee.

Although dazed for a moment, Newberry walked upstains from the basement, after the accident, without assistance, and fifteen minutes later was at work again, as though nothing had happened. He remained at business throughout the day, and refused to consider the matter in a serious light, atthough acknowledging that he had a closs call.

While Mr. Newberry was receiving the congratulations of his friends, at the Westminster Hotel yesterday evening. Jim Meredith approached him and said:

"Didn't I tell you to leave the wire pulling to me, Jack? See what has happened to you through trying to manipulate the wires yourself."

"All right, Jim," replied Newberry, "I guess I may as well confess that as a wire puller I'm not a success. People have accused be of being a pretty good one, but after this experience they will change their opinions. No, I won't monkey with the wires any more, at least not when they are loaded." The action of the operators came as supprise to the union miners and verybody else. Organizer Reed, who is change of the union headquarters are today said:

NEW YORK, Mov. 14.—Richard Croker was the guest of honor tonight at a dinner tendered to him at the Democratic Club by the board of governors and the officials of the club. Covers were laid for twenty-four. At the conclusion of the dinser, a handsome silver jardiniere was presented to Croker. President John Fox, who presided at the dinner, making the presentation speech. During the course of his remarks, President John Club, thanked Croker for his services as leader of the Democratic party in this city, and for the work he had done in behalf of the Democratic Club.

Speeches were made by nearly everyone present. Each had a word of gratitude to say to Croker for the half of the Democratic party. The trend of the speeches was to the effect that Croker would undoubtedly at as the leading spirit in the movement to unite the Democratic party in the State, and to lead it again in the minicipal elections.

Croker replied briefly. He asserted that the party had met defeat at the recent election through the work of this was due to mandatory legislation forced upon the people of this city by the Republican party at Albany.

BUFFALO (N. Y.) Nov. 14.—The directors of the Pan-American Exposition Company and a number of creditors conferred today, and listened to the reading of the financial report of the company, as prepared by the auditors. The report shows the total liabilities of the company at the present time to be \$3,325,116 net, assuming that the assets of \$145,465 are collectable at face. The company owes for operating expenses and construction work, \$57,945, which item is, of course, embodied in the figure of total liabilities.

An interesting fact shown by the report is the total cost to the exposition company of the exposition. The cost was \$3,560,757. The total receipts from admissions after May 1 were \$2,467,066, and the receipts from concessions were \$3,011,522.

The balance due to first-mortgage bondholders is \$174,979, and to the second-mortgage bondholders \$500,000, both of which are included in the liabilities given.

SYRACUSE (N. Y.) Nov. 14.—The snowatorm throughout central New York continues tonight with unabated severity. Country roads are in many cases blockaded, and huge drifts are piling along the fences. Streams are rising, and several places report threatening floods.

In Syracuse sleighs are running in the downtown streets. Trolley service is demoralized, but the steam railways are making their usual time. About ten inches of snow has fallen. The mercury is about at the freezing point.

The game was for 259 points, 14-inch balk line, two in, and was won by Dr. Burns in the forty-eighth inning. Against Burns's score of 250, with an average of 5 5-24, Duniway made 164 points, his average being 3 15-47. In the seventeenth inning Burns ran 37 points, and in the forty-second he scored 30. Duniway's highest runs were 22 in the ninth inning and 20 in the eighteenth.

The trophy, which is a valuable medal, must be won six times to become the property of the victor. Dr. Burns has now won it for the fourth consecutive time.

EX-GOVERNORS HILL AND BLACK MEET IN MOLINEUX CASE.

Cross Swords in Court as They Have Often Before Done in Political Arena Hill Represents the State and Black the Prisoner.

BY THE NEW ASSOCIATED PRESS-A.M.] NEW YORK, Nov. 14.—Two former Jovernors of New York, David B. Hill and Frank S. Black, met in argument oday in the Court of General Sessions today in the Court of General Sessions on the motion to quash the indictment charging Roland B. Molineux with the murder of Mrs. Katherine J. Adams. Molineux was once convicted and sentenced to death, but the Court of Appeals gave him a new trial for error on the part of the trial court. Ex-Gov. Hill. Associated with Assistant District Attorney Osborne, opposed in behalf of the State the motion to quash, and ex-Gov. Block joiped with Weeks, Battell & Marshall and former Dist. Attorney William K. Olcott, in pressing the motion in behalf of the prisoner.

Attorney William K. Olcott, in pressing the motion in behalf of the prisoner.

Gen. Edward W. Molineux, father of the prisoner, came to court in company with Gen. Horatio C. King and Frederick W. Devoe. A great crowd filled the courtroom, and stretched out through the open doors.

Black, in opening, discussed the right of the court to entertain the motion, and quoted a number of authorities to show that it had the power to do so. He explained that the motion of the defendant was to either dismiss the indictment, or give the defendant permission to examine the minutes of the grand jury and allow the proposition to dismiss to stand, pending the result of the examination of the minutes.

He asserted that no legal evidence had been presented to the grand jury, and recited the declaration of the Court of Appeals that the Barnett testimony was not competent. He insisted that if the indictment rested in whole or in part on the Barnett evidence, it could not stand. He said that Molineux had been sentenced to death on expert testimony.

Hill asserted that the motion was a dilatory one, and that a new trial having been ordered, it should begin. He characterized the motion to examine the minutes as a fishing excursion, and said it had already been denied by Justice Blanchard. He also said that the prisoner by pleading to the indictment had recognized it, and that he could not thereafter attempt to inspect the minutes. We the grand jury and of it was established.

Polson was established. Death was established.

Poison was established. Death was established. Death was established. Death was established. A crime was established. To commenting on the deductions of the defense in the Court of Appeals' deslaration as to the admission of writings, Hill said: "All these murderers would have to do if you took their view of the decision would be to put something offensive in their letters, and then the letters could be held as 'prejudicial' and could be excluded."

PLANS RETALIATION.

Danish Government Charges the American Customs Officials With Treating Its Chocolate Exporters Unfairly.

(BY THE NEW ASSOCIATED PRESS-A.M.)
COPENHAGEN, Nov. 14.—[By Atlantic Cable.] The government of Denmark is considering the most effective method of retailating against the United States, should the diplomatic representations now making in behalf representations now making in behalf of the Danish chocolate exporters fall. The exporters allege over-valuation of chocolate by the New York customs officials. The exporters deny that Denmark pays a bounty on chocolate, and claim that Copenhagen should be accorded the same treatment as America gives to other free ports.

It is pointed out that Denmark will suffer little loss in the case of retaliatory duties, since her exports to the United States are only \$750,000, against America's \$20,000,000 exports to Denmark.

DIED OF EXPOSURE.

WICHITA, Nov. 14.—News of the finding of the bodies of Mrs. Armstrong and her daughter on the prairie near Gage, has just been received. The bodies were scantily clad. It is supposed that they wandered from their home, and were overtaken by the bilzard that passed in the region of Gage Saturday night, and died of the cold and exposure.

LAKE ONTARIO BAD. ROCHESTER (N. Y.) Nov. 14.— Heavy weather prevails on Lake On-tario, and the government has or-dered storm signals to be kept up con-stantly.

CAPT. HUNT DYING.

CAPT. HUNT DYING.

Capt. George Hunt, the veteran boatbuilder and well-known water-front character, is dying. Last month the doctors told him that he might die within a few days or could possibly hold out for a month, but that his days were numbered. He had consumption, and suffered much loss of blood from hemorrhages. But the captain railied, got up and went about among his old friends and associates. Last Saturday he became sick again, and has been gradually sinking. Capt. Hunt is an old resident of this city, and has long been identified with its enterprises. He has built many a local schooner, and has turned out many launches from his shop. He came here from San Francisco, where he was a shipbuilder and sea captain. He is well known all along the Coast.

Dr. George Dorsey, an eastern cellege professor of note, will visit the San Dlego county Indians in the near future.

great dread of the pain and danger attendant upon the most critical period

a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery.

Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is svoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical

hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. \$1.00 per bottle at drug stores. RUNKENNESS NO DEFENSE FOR CRIME.

If it Be Sustained William Hesser May Be Hanged-Traveling Passenger Agents Leave for Catalina-Capt

SAN DIEGO, Nov. 14.—[From The Times' Resident Correspondent.] The prosecution in the case of William G. Hesser, on trial for the murder of Reis Hesser, on trial for the murder of Reis Pollerano, rested this morning and the defense began the introduction of testimony. For the first time the line of defense became evident. Nelli Boyle, who was formerly acquainted with the defendant in Arizona, was first called to the stand. He said that Hesser formerly had a saloon in Arizona. He stuck to the business until he had to quit for the reason that he was his own best customer. He was an habitual drunkard.

the defendant is subject to dipsomania and that his drinking propensities are uncontrollable. The line of argument is that he thereby was not responsible for his actions. The prosecuting attorney challenged such an argument as an adequate defense, and the court took the matter under consideration. This afternoon Judge Torrance rendered an important decision as to voluntary drunkenness as a legal defense. He held "that voluntary drunkenness, under no circumstances, was an excuse and the court of the defendant is subject to dipsomania

HAD A JOLLY TIME.

The members of the American Traveling Passenger Agents' Association left for Catalina at midnight. They will arrive there tomorrow at noon and will be in Los Angeles again tomorrow evening, continuing the journey to Santa Barbara at midnight. The last hours at Coronado were the most jolly of the trip south. General Passenger Agents J. J. Byrne, J. J. Black and George D. Nicholson of the Santa Féwere presented a stein linage, a loving cup and a silver punch bowl, respectively. The ladies also tendered Mr. Nicholson a handsome diamond pin, in commemoration of his courtesy in conducting their special train over the transcontinental lines. To dedicate the occasion they held an informal reception this afternoon. A concert and dance followed. Miss Emma Scholl and Mr. White of Detroit rendered the HAD A JOLLY TIME.

Friday Shoe Bargains

The fact of our having conducted one hundred and four Bargain Friday sales

in a satisfactory manner leads us to believe that this one hundred and fifth sale will be a success. Our Friday bargains get stronger and broader. It's a day that we set aside for the disposal of all short lines, broken assortments and remnants. You who are acquainted with Broadway methods know full

well that bargains are to be had on Friday that you could not hope for on any other day. To those unacquainted with these Bargain Friday sales, today

will be a splendid time to get in touch with this big, busy store.

Sugar-beet Increase.

Preparations are making for a large increase in the sugar-beet acresse next season. Ventura county will contract to grow 250,000 tons of beets in their output. This looks well for the industry, and indicates that the Anaheim people had given the beet-sugar manufacturers at tp. One of the factories will have to pay the farmers over a million dollars if they succeed in producing a normal crop from the acresse promised. So far the season is propitious. Fallowing of the ground is possible this early in the season, and the likelihood of a continuation of the rainfall will stimulate the best growers in advance to the proportion for a larger acreage. Oxnard expects an increase of 1400,000 tons of beets in Ventural county alone.

A general feeling exists throughout the orange field that prices will range higher for the ripening crop than those of last season. The reasons advanced by the farmers are the deficit in the orange crops, the superiority of the fruit and the shortage of the eastern apple crop. These are tangible reasons.

Of the fineness of last season's fruit and in spite of the low prices received. I heard of no material increase contemplated in the apple acreage of the East, and found many apple orchards going into decay from old age or neg-

lect.

I have never seen a more promising orange crop in size and quality than that now upon the trees. This will reinstate the orange with the trade, if it suffered from this low quality of last season's output. A careful examination shows a very small percentage of the oranges of medium quality. With the exception of a few orchards ravaged by the red spider, the fruit that will take the place of the apple deficit in the East is in ideal condition.

Gardens Improving.

The pending advent of the new electric line from Los Angeles to San Pedro has brought hope of quicker service to the berry and small fruit growers at Gardena. The new line will run through the center of the community, the graders having long since passed to a point below town with their work. The industrial affairs of Gardena are prospering. The orchards and small fruiteries are in good condition, and many ranch improvements are under way. This famous berry-growing section has an abundance of artesian water, giving the planters no uneasiness on account of scant rainfall. This season but little precipitation has been enjoyed, but enough to make horticultural work much easier.

The Chronicle of yesterday publishes tract Times summary of the orange crop in full, also giving in another article the estimate made by the transcontinental railway lines. I have not learned upon what basis the railroads place their estimate, or what means they used to size up the crop in a comprehensive way. But it would have to be based upon a thorough examination of at least the principal orange-growing sections to be of any value whatsoever. No one can make a guess at such a proposition as this without the liability of missing it many thousand carloads. If the railroad officials have made a comprehensive canvass they should publish the data secured from each locality, for no one has a deeper interest in the quantity of oranges now growing than the farmer who must find sale for his fruit. In the estimate the railroad lines have put forth it must

be remembered that the \$3,000 cars they be remembered that the \$3,000 cars they brediet includes lemons and other citrus fruits. In The Times' figures no lemons were included, but the deficit of the orange groves was subtructed from last season's orange crop. Since the fruit has colored more a large majority of growers heard from confirm the figures published in this journal on the lith inst. No estimate can be of value to the trade unless backed by general examination. A letter from Ontario, received since the publication of the summary in The Times indicates that public opinion is verging toward an estimate several points below that given in the article. No advices place the figures higher for the whole output.

lands east and north of Redondo the soil is so fertile that it is in many cases too strong for the production of hay and grain of a year that is favorable to vegetable growth. At this time the fires of burning stubble are seen everywhere, followed by gangs of men and teams with plows. Indications point to a heavy sowing of cereals this winter, the rains having placed the fields in fine condition for work. It is to be expected that the farmers will plant nothing but clean seed, as they of this section have had a severe experience during the last few months with Russian thistic imported from the Eastern States in barley seed. Already about ten thousand acres have been disinfected of thistle

The return of "seasonable" seasons has brought with it a renewal of our stock interests. In many portions of Southern California advertisements of orange crops, the superlority of the fruit and the shortage of the eastern apple crop. These are tangible reasons, and each will have an influence for the better. The only heavy fruit crop produced in the East last summer was the peach crop. It was enormous, but of little profit to the growers, except of certain varieties. Every peach tree planted in the East at least occupies its space to the exclusion of an apple tree —the only great competitor of the orange grown in this country. Georgia will plant 3,000,000 Elberta peach trees this spring and several other States will increase their acreage on ageount of the fineness of last season's fruit nia. The dry years and the cheapening of the bicycle have caused the Mexicans to give up their skates, and even the Chinamen now drive good-looking, if not young horses. The stock breeder is climbing into the saddle again and thus the industrial interests of this section get one more diversity. The revival affects the quality of the range, the dairy, the breeding farm, the shepherd. All lovers of horses rejoice at the improved condition of driving stock, and horsemen are able to get old-time prices for good horses and mules.

Again, the Nostrums, The Times may save its horticultura

The Times may save its horticultural readers money by reminding them that there is a better way to prove fruit-pest exterminators than by exploiting them in the public press. The test is, trial. At present there are a few quacks, if the test of newspaper write-ups be applied to determine that, who are criticising the work of the experiment stations of the State. As a result of actual trial the authorities of the university have published the fact that the clive knot and the Anahelm disease are incurable by any means at hand. These maladies are extant in the region roundabout Healdsburg and St. Helena. The advertisers of unproven remedies are after the State authorities for advocating the removal of all infected trees and vines as the only way to stop the spread of these infections. They do not try to prevent the application of experiments by the growers who wish to try the nostrums. But they do take the ground that it is unwise and even dangerous to awalt a demonstration, when their own attempts with all that science and practical experience can devise have proven unavoiding.

sold California lemons since they were first put on the New York market, and I must say that it is only on rare occasions that the Sicily lemon equals the California lemon in quality or honest packing, the topping off of the Sicily lemon in the last few years being a detriment to their sale.

As far as my own trade is concerned, the California lemon has given better satisfaction than the Sicily, and I believe it to be the lemon of the future.

CHARLES KOECHLING.

NEW YORK, Oct. 30.—Having supplied the samples of California lemons for use in the latest analysis, I have been naturally interested in the outcome, and am glad to see by reports published in trade papers a few days ago that the results have been very satisfactory, placing the fruit in even a more favorable light than last season.

I do not, however, believe an analysis absolutely necessary to demonstrate the superiority of the California lemon, as the fruit itself is a sufficient advertisement, and shows the thoroughness and up-to-date methods employed by the growers on the Coast. The demand is constantly increasing, and I look for a remarkably good season.

NEW YORK, Nov. 2.—As regards quality of California lemons, they stand head and shoulders above the Italian or Spanish lemons: in fact, our trade insists upon having them in preference to any other kind.

As to the condition in which they arrive, and their keeping quality, that leaves a good deal to be desired, owing to the fact that even when they do arrive in good condition they will show a good deal of waste in a short time. This, no doubt, you will be able to remedy eventually.

Charges for Electric Lights.

At a meeting of the board of directors of the Merchants' and Manufacturers' Association last night a petition was received, from a large number of merchants, complaining of the increased rates for electric lights. It was stated that in some cases the rates had increased 100 per cent. since the three lighting companies agreed upon a uniform rate. A committee was appointed to investigate and report.

A letter from J. J. SANTA MONICA, Nov. 14.-[To the EANTA MONICA, Nov. 14.—[To the Editor of The Times:] If the Senator White statue is not to be ornamental as well as memorial, it should not be erected anywhere; but if, as will certainly be the case, it is to be a thing of beauty and a credit to the city and State, it does not seem to me that a more appropriate location for it exists than in front of the Courthouse on public ground. Placed there it is a valuable donation to the public; and as Senator White was first and foremost a lawyer, it is peculiarly appropriate that the statue should adorn the Courthouse grounds of his home city, I am surprised that anyone should seriously oppose such location.

To the Honorable Board of Supervisors, Los Angeles county, Cal.:
Whereas, the Supervisors of Los Angeles county have denied a request made by the Stephen M. White Meemorial Committee, with reference to granting them a certain location on the Courthouse grounds; and, whereas, our late lamented fellow-townsman, Hon. Stephen M. White, was in all respects the grandest of all native sons; and, whereas, he honored this portion of the State with a residence of several years, during which period he was a loyal citizen and devoted representative in the halls of the Senate, and the champion of every movement advanced for the welfare of this community; now therefore be it. Resolved, that the Wholesale Grocers' Association hereby respectfully urge the Board of Supervisors of Los Angeles county to grant the request of the Stephen M. White Memorial Com-

If the Fire Commission is as good as its word, a final decision will be reached this morning regarding the application of Mrs. Caroline W. Dobbins for a permit to erect a gas plant on St. John street. At the last meeting of the commission the matter on St. John street. At the last meeting of the commission the matter was argued into shoestrings, and because of a deadlock among the members it was taken under advisement, with the understanding that a vote will be taken this morning. The chances are about even that the permit will be granted by the board. Commissioners Frankenfield and Vickrey state that they will vote for the application. Mayor Snyder's attitude indicates that he will vote against it. Commissioner Kuhrts is undecided, or was at last accounts, while Commissioner Webb will not declare himself in the matter.

Mrs. Dobbins has complied with all the requirements of the fire board, and has made affidavit that she intends to furnish gas for purposes of illumination only; the location on St. John street is in the center of the manufacturing district, and the owners of mills and iron foundries are in favor of the application because they expect to get cheap coke.

IN DEADLY PERIL

The Narrow Path of Safety.

The Alpine tourist who finds himself suddenly clinging with feet and fingers to a shelf of slippery rock overhanging a dizzy precipice, understands in a very literal sense the full meaning of the words, "There is but a step between me and death." His peril is so tragic in all its circumstances, so wild in its mountain setting, that the heart almost stands still at the thought of it.

But as a matter of fact every man walks the world with his life in his bands, and the path of safety is marrow for his feet.

An example of the constant peril in which we live is found in the alarming

PERRIS, Nov. 14.—[From The Times' Resident Correspondent.] Mrs. Wilson McVelgh saved her husband from serious injury and possibly death at the hands of Mitchell Smith yesterday. Smith imbibed more of "temperance" beverages than was good for him, and became very pugnacious. He took offense at something McVeigh had said, and started after him with a pitchfork. McVeigh was unarmed and had to retreat, and several times he came near being punctured by the fork in the hands of the drink-crazed man. Mrs. McVeigh appeared upon the scene and at once sailed into Smith in a manner which showed him that she was not to be trifled with. She took the fork from him and then had him arrested on a charge of assault with a deadly weapon. So good a case did she make against him that Justice Maxfield held him to answer, fixing his bond at 390. Smith was unable to give this, and is now in jail. Before he was taken there he swore to a complaint against McVeigh, charging him with selling liquor in violation of the county ordinance.

DIVERSIDE SERGEANT MAKES WONDERFUL SCORE.

Sergt. Huddleston Breaks All Records in Official Target Practice by Perfect Shooting-Senator Thomas Plint, Jr., Entertained by Prominent Republic

RIVERSIDE, Nov. 14.—(From The Times' Resident Correspondent.) To Sergt. Huddleston of Co. M, of this city, belongs the distinction of being the best rifle shot in the entire National Guard of California. When it is remembered that the National Guard numbers among its members hundreds of men who have been accustomed to use firearms from boyhood and who

of men who have been accusiomed to use firearms from boyhood and who are considered expert shots, the importance of the distinction may be appreciated.

At the range of the local company yesterday, in the presence of Lieut. Thaxter, inspector of rifle practice, and a number of the members of his company, Sergt. Huddleston made probably the most remarkable score which has ever been made by a militiaman in the entire State, and there are man in the entire State, and there are not many instances when it has been equaled in the entire country either by militiamen or regulars. On three ranges, 200, 200 and 500 yards, he made a perfect score, 25 on each range, a total of 75.

Co. M turned out for target practice

Co. M turned out for target practice Tuesday for the third shoot of its regular series, of which official records are kept, and, as stated yesterday, made a company score which places it at the head of the list for excellent marksmanship in the National Guard. Sergt. Huddleston and Corp, Irvine were unable to accompany the company or that occasion, but as both had previously made phenomenal scores at other shoots it was desired that their geores be added to that of scores at other shoots it was desired that their scores be added to that of the others, so that the company average would be increased. Accordingly Lieut. Thaxter was induced to accompany the two soldiers to the range yesterday and in his official capacity keep scores for them.

Corp. Irvine made the remarkable score of 73 on the three ranges, equaling the records made by Capt. Thomas of Co. D. Pomona, and E. E. Ayers of Co. B. San Diego, which had been the highest scores made by any member

Co. B. San Diego, which had been the highest scores made by any member not only of the First Battallon, but of the entire National Guard. Then Sergt. Huddleston made his wonderful score. He did his shooting with the utmost coolness and fired his last shot, after all his others had been bulls-eyes, with the same steadiness as his first, and made another bulls-eye. The scores made yesterday give Co. M four distinguished marksmen, entitled to the gold bar issued by the State to them. They are Huddleston, with a total score for the three shoots of 205: Bloom, 135; Irvine, 194, and Kniss, 193.

W.R.C. LADIES' CONCERT.

TROPICO, Nov. 14.—[From The Times' Resident Correspondent.] The ladies of Banks Circle, W.R.C., gave "ye olden tyme" concert at G.A.R. Hall Tuesday evening. A musical programme was rendered before an appreciative audience, which taxed the seating capacity of the hall. Standing room was at a premium, long before the hour for the concert to commence. The hall had been artistically decorated in pink and white chrysanthemums. The participants wore old-time constumes, powdered hair, and all of the dainty adornments that rendered the dames and maidens of a century age attractive. Each number on the programme received merited applause. The programme consisted of piano duets from Straues and Mosart, by Mrs. D. H. Imier and Miss Ausgurger; vocal duets, "Ben Bolt," by Misses Alma Hapgood and Ruth Burilingham; violin obligato by Miss Maude Lund; "Far Away," by Mri. D. H. Imier and Mrs. M. O. Ryan; violin solo, "Fantasia," from Tartini, by Miss Maude Lund; piano solos, "Minuet" (Pader-

Nothing decisive was done last night at the meeting called to organize an amateur athletic league. Owing to the brief notice given, less than a dozen persons were present in room 306 in the Bullard Block. Only Occidental and St. Vincent's colleges. Throop Institute and the Los Angeles High School were represented. It is proposed to organize a league with these schools, and Pomona and U.S.C. Colleges as a nucleus. A general plan of organization with "clean amateur athletics" as the object was informally discussed, but nothing was decided upon, the whole subject being referred to a meeting to be held November 29, at which time it is expected to have all the abovenamed institutions represented, with power to act.

SAN FRANCISCO, Nov. 14.—Oakland surprised both spectators and
themselves today by getting on the
proper side of a one-to-nothing score
in a fast and snappy contest with the

CTIVITY OF POLICE CHECKS BEGGING EVIL

LOCAL MENDICANTS DESERTING ACCUSTOMED HAUNTS.

Kept Moving By the Officers, Pewer of Them are Seen on Public Streets. Backbone of Offensive Beggary May

The police are not relaxing their efforts to clear professional beggars from the principal business streets, and are demonstrating plainly that the monstrosities, cripples and others who depend on a sympethetic public for a living can be kept in check and so discouraged as to compet them to turn to honest toil or go back to the homes and friends or public institutions in other States which should care for them. Spring street, which has been the beggar's Golconda, was practically free from the pest yesterday, a fact which was due to the diligence of the officers on that beat, and one could walk along the street without danger of stumbling over the form of some unfortunate squatting on the pavement.

Where these people have gone is not known, even by the police, who know only that the beggars have been kept moving from one place to another. Some of them, it is known, have left town. This is all that can be done with them unless they violate some ordinance, as begging, thinly cloaked, is tolerated under the city's laws. To the officer on the beat, however, depends almost entirely the beggar's welfare, or undoing, and when the bluecoat thinks it advisable for the beggar to move, he moves. Most officers, though, have hearts, and in the cases of really deserving beggars they are as lenient as possible. They know the fraud that is practiced by most of the mendicant fraternity, and with these they have no sympathy nor patience. As an example of this fraud, an officer in citizen's clothing encountered two beggars a few days ago, one of them being minus a foot, while the other was using crutches, shamming lameness. The man with one foot was talking in a low tone to his companion, who was a new comer, and has the best street. I made \$3.50 yesterday, and Sunday, which is usually dull, I made \$3." Both these men were failed as vagrants, and when their cases came up in the Polica Court they were dealt with according to their deserts. In fact, the officers say that Justices Morgan and Austin of the inferior courts understand

FOUR LATEST BURGLARIES

Thieves are Doing Brisk Business.

Hotel Burglar Caught in the Very Act.

Prisoner Confesses and is Now in Jail-Nipper Man at His Old Tricks.

Four burglaries were reported to the police yesterday. One burglar, who was caught as he was leaving the place which he had robbed, had his booty with him, has confessed, and is now a prisoner at the City Jail.

The prisoner gives the name of J. W. Lenk. He was arrested yesterday afternoon at the Natick House, where he was seen leaving the room of Mrs. E. A. West. A youth employed at the hotel saw him climbing through the transom over the door. The management detained the man until the police were notified, and two detectives were detailed to arrest the burglar. At first Lusk denied his guilt, but later owned up. When searched there was found in his possession some of Mrs. West's jewelry to the value of nearly 340.

Lusk has been a guest at the Natick House since last Monday. He claims to have come here from Iowa, but the police say he came from Stockton. Since registering at the hotel very little has been seen of Lusk there. Wednesday evening, he says, he was in the parlor, when he heard Mrs. West telling here about her jewels. He learned where they were kept, and yesterday determined to take them.

With this intent he entered the room through the transom, secured the valuables and would have made away with them had he not been seen just as he was issuing from the room.

The police say they believe Lusk is an old-time crook, and that he has served in one or more peninentiaries. His record will be thoroughly investigated before he is tried.

The three other burglaries reported occurred during the night or early yesterday morning. Two of them are believed to have been the work of the person or persons who have been operating here for more than two weeks.
